

## Extended Care Camps (Ages 3-14)

<b>May 29 – June 1</b>	<b><u>Nature Week</u></b> Let's explore Nature! We will create a butterfly and a salad garden; design and utilize a compost bin; take nature walks; find art in nature; and spend a lot of time outdoors. This will be a fun filled week!
<b>June 4 – 8</b>	<b><u>Who Let The Bugs Out?!</u></b> Insects and arachnids and annelidas oh my! During this week long camp, we will be investigating 'bugs' that are useful to our environment. We will release butterflies and ladybugs into our gardens; build a worm tower for our gardens; explore spiders and their webs; and create 'bug' related crafts. We'll be bugging out this week!
<b>July 2 – 6 (Closed on July 4)</b>	<b><u>Water Olympics</u></b> Come join us for a week full of water-based Olympic sports. We will train for the competition by completing obstacle courses, creating Olympic-based crafts, and racing against each other in timed events. Celebrate victories and bring water clothes because you will need them!
<b>August 6 - 10</b>	<b><u>"Out of this World" Space Adventure!</u></b> Planets, asteroids and countless stars are ours to explore as we blast off together for a space adventure. Let's build our own planetarium with constellations, experience how an astronaut eats, and walks in space? We will have an out-of-this-world experience in space!
<b>August 13 -17</b>	<b><u>Summertime Fun</u></b> Summer is almost over and school is about to begin. Let's end our time together with a week featuring the best moments in the sun. We will even go on a field trip to see a movie and picnic at a park. Let's celebrate the best summer ever!
