

Camps for ages 6-9

<p>June 10-14</p>	<p style="text-align: center;"><u>Enchanted Princess Week</u></p> <p>All the princesses of the land are cordially invited to join us for a week full of etiquette lessons, tea parties, dancing, singing, and princess fun! With celebration, a very special princess will be visiting! Hosted by Princess Parties by Malinda (Maximum of 10 campers)</p> <p style="text-align: center;"><u>Outdoors and Loving It!</u></p> <p>Let's get outside together! During this week, we will learn about the outdoors and its diversity. We will go on nature walks and identify different species of plants, trees, flowers, wildlife, and much more! We will learn about different rock formations and how to identify them. In outdoor club, we will talk about how to read a map, use a compass, set up a campsite and how to coexist with nature!</p>
<p>June 17- 21</p>	<p style="text-align: center;"><u>Animal Love</u></p> <p>Do you love animals? Spend a week learning about animals. We will learn how to take care of animals, "adopt" an animal (don't worry parents, they are stuffed), learn about the animal shelter, do a community service project by making toys for the shelter, and lots more. We may even have a visiting animal or two!</p> <p style="text-align: center;"><u>Spa Camp</u></p> <p>Want to maximize summer relaxation and the fine art of de-stressing, then Spa Camp is the place to be this summer! When you check-in to "Spa Academy", you can expect to chill out in a lounging area with big pillows for massages, get facials/manicures/pedicures, and learn a little yoga. Campers will also have the opportunity to create their own wellness products to help them unwind. Creations will include bath bombs and lip balms. This will be a fun way to learn a little about chemistry and measurement, but also to get children thinking about relaxation early so they have a better chance at becoming balanced adults.</p>
<p>June 24- 28</p>	<p style="text-align: center;"><u>Camp Invention: The Innovation Force and Farm Technology</u></p> <p>During this week, campers will team up with members of Innovation Force, a group of NIHF Inductees who have been transformed into comic book superheroes! By Thwarting the evil Plagiarizer, a supervillain out to steal the world's ideas, children create a device to retrieve the stolen ideas and, in the process, learn about the importance of intellectual property and the patent system.</p> <p>Additionally, in Farm Technology, children are put in charge of managing their own farm and learn the basics of running a business. With the assistance of their very own Bot-Ann-E robot, campers learn fundamental coding techniques to maximize their time and profits. Children will be introduced to DNA synthesis, and they will perform their own mock DNA experiment to check the health of their newly purchased cattle.</p>

***All camps are \$125 unless noted otherwise. Snack included.**

Camps for ages 6-9

June 24 - 28	<p style="text-align: center;"><u>The Wonderful World of Art</u></p> <p>Art is expressed in a variety of ways. Our goal this week is to help your child experience a series of artistic styles and artists, and maybe find a favorite. Each day they will be learning and creating with a different artist, with them being the “featured artist” at the end of the week. Everything from painting to sculpting. The sky's the limit, using their own imagination as their guide.</p>
July 8-12	<p style="text-align: center;"><u>My Science Factory</u></p> <p>Hands on fun with crystals, volcanoes, minerals and ewwy, goeey slimy science experiments. See how beautiful crystals are formed, how the changes in the earth make volcanoes erupt and how to recreate these mysteries while having fun and building excitement about science. Not only will your children enjoy doing experiments every day, they will learn the science behind the fun!! Let's encourage the budding scientist in your child.</p> <p style="text-align: center;"><u>Laboratory Kitchen</u></p> <p>Bubbles! Colors! Slime! Ice! Campers, put on your goggles because we're going to experiment with food! We're going to find the best way to make homemade ice cream. We're going to see how raisins are made and make edible SLIME. Cooking is very scientific, and we're going to explore just how much science it takes to feed us each day. Let's cook up some fun in the kitchen.</p>
July 15-19	<p style="text-align: center;"><u>Snack Math</u></p> <p>Calling all chefs! Cooking camp is recruiting all cooks for our kitchen. Campers will learn basic cooking skills, such as measuring, doubling or halving a recipe, and cleaning up. We'll study math at the same time! We have two new recipes a day that students can take home and easily recreate. We will make many foods, such as fruit salad, personal pizzas, cookies and more! Get ready for a week of fun, math, and cooking!</p> <p style="text-align: center;"><u>LEGO City CAMP</u></p> <p>LEGO City CAMP WeDo is a long-running and successful course designed so that keen young engineers of the future can learn about new technologies and robots that could improve life in a modern city. To see the solutions in action, children build and program robots of the programs design.</p>

***All camps are \$125 unless noted otherwise. Snack included.**

Revised 3/2019

Camps for ages 6-9

Camp Invention-Deep Sea Mystery and DIY Orbot

Children embark on a research adventure at sea to dig up fossils, but soon find themselves stranded on an island. Children will invent island-survival tools and underwater equipment used to better study marine life. They will explore navigation techniques using the constellations by creating a Little Dipper Lamp Projector to take home and they will build/design miniature boats that must float and carry pieces of cargo.

Additionally, children will explore frequency, circuit boards, motors and gears as they use real tools to reverse engineer a remote-controlled DIY Orbot. Throughout the week, campers will adapt their DIY Orbot to perform increasingly challenging tasks from sports to art using basic engineering skills.

July 22 -26

King Arthur and His Knights & Ladies

Join us as we discover the legendary King Arthur and his brave Knights of the Round Table and their Ladies. They have many adventures in medieval England and in Camelot – standing high above the region and always protecting the defenseless.

Planet Ashley

Find your inner David Attenborough! Campers will explore the natural world and document the process through field trips, collecting creatures, and telling their story by producing their own nature documentary. Led by biologist Dr. TJ Jones and budding filmmaker, Guthrie Jones.

**July 29 –
August 2**

Sports Mania

Learn the basic fundamentals of five (5) sports while also practicing unique games and drills that promote teamwork and healthy competition. It's the perfect camp for the aspiring athlete and sports enthusiast no matter the skill level.

***All camps are \$125 unless noted otherwise. Snack included.**

Revised 3/2019

Extended Care Camps For Ages 3 - 13

May 28 - 31	<p><u><i>The Earth Without Art is Just "Eh"!</i></u></p> <p>Join us as we explore the earth and art. Discover innovative ways to turn one's trash into a treasure! We will recycle and reuse in order to design bird feeders and rain catchers, create collages and luminaries, and much more. It will be a blast!</p>
June 3 - 7	<p><u><i>Water Olympics</i></u></p> <p>The history of the Olympics is a long and glorious one! This camp combines uncovering events and facts from the early Olympics with a week full of competing in water events. The week ends with a medal ceremony that is always a fan favorite!</p>
July 1 - 3	<p><u><i>Campfire Stories</i></u></p> <p>Spend a few days enjoying the outdoors! We will listen to campfire stories from across America while sitting in the campsite. Come create backpacks, learn how to set up a tent, cook a meal, make smore's, and much, much more!</p>
August 5 - 9	<p><u><i>It's a Creepy, Crawly World!</i></u></p> <p>Let's make life interesting and discover the world of creepy crawly things! What is their value to this earth? How can we help protect them? We will learn about natural habitats, create a butterfly house, examine a worm habitat, and enjoy these strange but beautiful creatures!</p>
August 12-16	<p><u><i>Life is an Adventure!</i></u></p> <p>Let's have an adventure and make it GRAND! This week will be full of field trips, picnics, water play, outdoor games, crafts, and enjoying the last gasp of summer before school begins again! What an adventure!</p>
